

# NAET

Get rid of your allergies permanently! Addictions, illnesses, and many other conditions are often allergy-based. This includes headaches, back aches, joint pains, PMS, indigestion, body aches, as well as Chronic Fatigue Syndrome, Fibromyalgia, immune disorders, hyperactivity, arthritis, anxiety, and depression.

Unfortunately many of these allergies or sensitivities go undiagnosed, and consequently conditions in the body worsen. The longer allergies go untreated, the more toxins are produced, affecting every system and organ in the body.

NAET® was designed to reprogram your internal system on a physical and emotional level to overcome negative responses to allergen(s). NAET® was discovered in 1983 by Dr. Devi S. Nambudripad, a chiropractor, licensed acupuncturist, R.N., and Ph.D. Drawing on Dr. Nambudripad's expertise, the treatment combines chiropractic and Chinese Medicine principles through the use of applied kinesiology, acupressure, and nutrition. All results are achieved without drugs, allergy shots, nor any other invasive entries into the body.

“Dr. Nambudripad's discovery, NAET®, is an innovative and completely natural method for regaining better health with often permanent freedom from allergies and the diseases arising from those allergens.”
